Helena Should Own Its Plant Som Think While Others Think

Otherwise,

The Majority Favor Letting a Contract Which Shall Be for a Short Period of Time.

Whether the city should own its water supply or depend upon corporations is a mooted question. Some of our citizens are in favor of the city going in debt to pu chase a plant that will supply the city wi a bountiful supply of pure and wholeson water for succeeding generations, while others think the present time inopportune for the expenditure of so much money ho wever, all agree that the city should is the near future own its own water supply the opinions of citizens and taxpayers as secured by interviews are appended:

C. K. Wells—The city should own its water supply, but it is not in a position to do so at this time. I should favor making a short contract with a responsible company.
Thos. Cronin-I think Helena should own its water supply, but as the city is already with a stipulation that in the course of two with a stipulation that in the course of two
or three years it would purchase the plant
Ed. Zimmerman—I don't want a mill
stone around the public. We downed the
\$3,000,000 subsidy for the Union Pacifi
narrow-guage railroad, and since then the people are glad of it. This man Woolston wants \$20,000 a year for water. At present that is \$1 a year for every person in Helena. When the city grows it will be less per capita. I don't want to see the city ny new expensive experiments. It is like The Criterion Cafe serves the best dinner tenderfoot at quariz mining.

Bozeman last evening.

about the Woolston proposition, I think about the woolston proposition, I think in all the companies were consolidated it would give better satisfaction. My experi-ence is that where a city government con-trols its water supply, there is more dis-satisfaction than if owned by private indi-viduals. Another evil of the city owning viduals. Another evil of the city owning its work is, there is not the proper attention paid to it. Experience shows that where these enterprises are under public management they are the prolific fruit of rings, jobs, and schemes, no matter what party is in power, that invariably operates to the detriment of consomers. In view of this and many other reasons, I am in favor of placing the matter in the hands of individual enterprise.

vidual enterprise.

H. S. Howell—The experience of all cities has shown that the proper idea is for he city to own its own water and sell it to the people at a rate that will pay a rea-sonable interest on the investment. The city is not in position at present to go into enterprise so extensive as this. If all ne companies go into together they may be able to furnish an ample supply, and I should favor letting the contract for a short time, and at the expiration of the contract let the city buy them out.

T. H. Kleinschmidt—If the city can get water at a reasonable cost let it do so; but Idaho, which he reports as unusually

but one thing for the city to do, which is to make a contract for as short a period as it

M. H. Mulloy, Chicago; A. Smith, St. ouis; Will H. Ten Eyck, Baltimore; Wm. syrnes, Great Falls, and Julius Meyer, can, and I think ten years would be a realarrisburg, Pa., are among yesterday vening's arrivals at the Pacific. but at the present time Helena is not in a Simon Hauswirth, a prominent citizen of Butte, passed through Helena yesterday via the Montana Central, accompanied by to take hold now it would saddle on a ver to take hold now it would saddle on a very heavy debt, and it would discourage other other improvements that will be needed. I would not approve of letting a long con-tract. We need water at once, and Wool-ston is in a better position to cover the de-mands immediately. If a contract is made his family, to participate in the Grand Army encampment at Milwaukee. Walter H. Merriman, New York city; W. V. McGrath, jr., Miss T. A. Hughes and Miss T. A. McGrath, of Philadelphia, and C. W. Copp, of Lincoln, Mont., are among yesterday's arrivals at the Merchants. Wm. Hartwig and family left last ever

Lump gulch will supply the amount of water said to be there.

Jno. T. Murphy—I don't think the city would be better off than by making contracts for short periods of time. So far none of the new schemes promise any more water than is a present applied only in g for a visit to Omaha and other points Nebraska, and expect to be absent six weeks. This is Billy's first visit to his home in six years and he has well earned his brief vacation. Edward A. Turner, Jacksonville, Fla., Fred A. Lathrop, Chicago, Mrs. L. E. Parkill, Philipsburg, F. C. Wood and E. H. Avery of St. Louis, J. Roberts, Missoula, and Wm. H. Lymington of New York, are at the Grand Control water than is at present supplied, only in a very vague and indefinite way. By the matter being left open it will prompt others to make an effort to bring more water in I am not in favor of letting any fifteen, ten or five year contracts. Five years as suffi-cient to keep others out. I don't think it ork, are at the Grand Central. Among those who left for Mliwaukee last evening via the Northern Pacific were Mrs. M. M. Churchill, T. Prothero, Miss Watson, F. H. Fowles, Mrs. S. A. Irelao, W. H. Luttle, I. Marks, Mrs. C. S. Rockingfield and Mrs. Fred Teutenberg. cient to keep others out. I don't think is prudent at present for the city to own it water, but this should be the ultimate result as it is in many cities.

Mayor T. P. Fuller—I am strongly in favor of the city owning its water supply I would not like to see the city obligate it Ed. Keith, the accomplished editor of the

self to any company tor a longer period than five years. At the end of that time the city may be able to solve the water question and the solution means an expen Miner. It is understood that Mr. Doty will diture of a million or a million and a half dollars. In view of this it would be un-practicable at present for the city to under-take to supply itself with water. We are now expending considerable meney on the be retained as associate editor. The fair hop committee have appointed the following sub-committees: also their should be one or two publi-parks located, we must improve the fir-system and the work of improving the new cemetery should be included among the current expenses and all these will involve Music-Joseph P. Reed, chairman; H. B. Kane, R. A. Harlow, S. E. Atkinson. Tickets-Wm. Wallace, Jr., chairman steve Carpenter, Ben E. King, Charles a large outlay of money, nevertheless I am of the opinion that the city should own its water supply when the city is in position to undertake the scheme.

A. M. Holter—The proposition is too big for me to express my opinion without giving it some consideration. I have just returned from the cast and am not account. Power, Thomas M. Reed, Geo. H. Barbour. Fioor Committee—W. C. Child, chair-man; E. W. Knight, Jr., A. J. Davidson, Geo. H. Hill, Geo. B. Child, T. H. Klein-schmidt.

schmidt.
These committees are requested to meet as soon as possible and get to work. ed from the east and am not acquain ed with the situation. But if the city is go-ing to own its water supply, Gate of the Mountains is the only source on never fail-Real Estate Transfers. The following real estate transfers were ing supply.
S. Poznanski—I think the city should filed in the recorder's office yesterday: own its water supply.

E. W. Knight—I think it is more desirable. for the city to make a contract with indi viduals, dealing with it as a business prop

ample supply for fire and sewerage pur-poses, I see no reason why we should not go into a contract for ten years. Although I believe in the city owning its water I do

filed in the recorder's office yesterday:

water supply, but it can't do it at present.
It is too big an enterprise just now, and the
best thing we can do is to make a con-BILL OF FARE tract on the most reasonable terms possible.

E. D. Edgerton—I believe the city should own its water. Not immediately, but Broadway Fish Market. Fresh lobsters. Fresh mackerel. Stk. cod. Halibut. Blue fish. Black bass. within the next five years. I do not want to see the city bound to George F. Wool-Charles Rinda—So many improvement

are needed in the city that I doubt the advisability of going into debt for water. I am in favor of a short contract, however. Col.C D.Curtis—I certainly am opposed to the city's going into debt for a water supply at present. If we can get a good solid contract with a water company which will

contract with a water company which will furnish an abundant supply of pure and wholesome water for domestic use and an not think it advisable to build water works col. James Sullivan-1 certainly am in favor of the city owning the water. We pay out thousands yearly for water that is never used, and that money could be used to pay bonded indebtedness. The city can go in debt \$1,000,000 or \$1,500,000 if necessary for water works, and I am willing to pay my share for that purpose. It is fool-ishness to put ourselves in the hands of

ishness to put ourselves in the hands of corporations. I believe that the city would thrive and prosper as it never has if we owned our own water and capitalists realized that they could make safe business investments. The water supply ie a problem that can be fathomed if we pay enough money for the solution of the problem. club will be held at room 14, second floor market, and Whittaker Star hams, at Robert S. Hamilton—Col. Sullivan has expressed my sentiments. Woolston has not given us what he promised to do. We should not trust him again. The city should own its own water.

D. H. Weston—I don't know exactly which would be the best plan. Eventually the city will have to own its water,

which would be the best plan. Eventually the city will have to own its water, but I don't think we can afford to go into debt just now for \$1,000,000 or more.

Frank Kenck—I am in favor of the city owning its water. We might as well go in debt now as in the future. We can get a good supply of water cheaper now than

should be expressly stipulated in the contract that at the expiration of a certain time the plant should become the property of the city. John Steinbrenner—As a heavy taxpayer Gamer's. So shoes for \$4 at THE HELENA POSTOFFICE.

The Postmaster Pays Out of His Own

I can say that I am heartily in favor of the city owning its own water. We have no water now to amount to anything and should have a bountiful supply. Let us build for the future.

Albert Kleinen—It would cost a great deal for the city to own its own water but Pocket Part of the Clerks' Salaries. The sale of stamps and rent from boxes deal for the city to own its own water, but we will have to have good water. People are willing to pay for good water and we in the postoffice brings in a great deal more money than the expenses of the institu-tion of which Col. Chas. D. Curtis is the head. Notwithstanding this, the chief mo guls at Washington have seen fit, ostensi bly for the sake of economy, to cut down Delegates to the Republican State Conthe salaries of at least three clerks. Postmaster Curtis doesn't like this, bu A special train bearing the delegates to his vigorous protest has availed nothing the state republican convention to be held The Heiens postoffice is the distributing in Anaconda to-day pulled out from the point for the entire territory, and the em-Northern Pacific depot yesterday after- ployes work harder and put in longer noon bearing the Lewis and Clarke and hours for loss pay than in any other branch of Uncle Sam's business. When other county delegations. The platform the cut in salaries was made the cierks af-fected immediately tendered their resigna was crowded with the faithful who went down to see the boys off and tender advice. tions, and as the postmaster could not get anyone to properly fill the positions at the salaries designated, Mr. Curtis went down in his own pocket and paid the difference Several caucuses were held before the train started and pledges were renewed to the effect that the east side must stand rather than have the public inconven-ienced by breaking in strangers and per-haps being without help for a few days. Coi. Curtis prides himself on having the best set of employes under him that he ever run across and would not, without solid. Among the notabilities were noticed: Col. Sanders, Col. Botkin, Delegate Carler, E. D. Weed, Judge Sanders, Col. Eaton, C. S. Hartman, L. Rotwitt, General Manager Boos, Editor Quigg, Judge Jos. Davis, James B. Walker, T. C. Power, Col. De Lestry and a number of the faithful and ardent. very good cause, discharge one of them. He says they are good natured and put in many hours overtime without compiaint, and he thinks it a small business matter to cut down their salaries, but they will not lose anything while he is in office.

Since he has been postmaster Mr. Curtis has paid over \$4.500 out of his salary for restrict over the ball and office improvements. One delegate bore a gripsack upon which was painted in large white letters G. O. E., and the suggestion was made that the latter letter be changed to P. and the grip be

borne at the head of the procession as a banner.

A car stocked with commissary stores was a part of the train, and as ice water is deleterious this warm weather it is quite evident that the goods were sampled before Deer Lodge was reached. A number of ladies accompanied the party but on the office is entirely without one cant fore Deer Lodge was reached. A number of ladies accompanied the party, but no band. It was learned from a private source that every delegate from Lewis and Clarke county went instructed and will be held in line from beginning to end and will have to vote as the leaders say. There is a strong disposition of some of the delegates to kick out of the traces, but Delegate Carter for 19,000 are sent out, and the postmaster has to continually keep up his requests for stamps in order to supply the demand. Col. Curtis says the business is rapidly that nothing but prancing will take place. Col. Curtis says the business is rapidly growing and more help is needed in the office.

An Interesting Question of Citizenship Decided-An Attorney's Opinion. Helena, Aug. 21.—[Editor of the Independen.]—Can a person, who was brought to this country by his widowed mother when he was less than one year old, who has resided in this country ever since, who is old enough to vote; in fact, cast his first ballot for Horace Greeley, and who has voted several times since he settled in Montans, legally vote without first declaring his intentions to become a citizen?

It may be well to state that the mother of the person in question married a citizen of the United States shortly after her arrival in this country and he supported and took care of his step-son until he (the step-son) was old enough to rustle for himself. Now this young man claims owing to the fact that his step-father was a citizen and brought him up and treated him as his own son, naturalized him, while I hold he can more vote legally than the emigrant who arrived from Ireland or Germany yesterday.

Please apswer through the INDEPEN-HELENA, Aug. 21 .- [Editor of the Inde-

MINERAL LANDS.

The Northern Pacific Railroad Company Files Its Protest, Showing the Ground It Takes.

The Property of the Christmas Git Mining Company at Issue as a Test Case.

of Definite Location Claimed to Be Inalienable.

A copy of the protest filed in the genera land office at Washington by W. K. Mendenhall, attorney for the Northern Pacific railroad, against the issuance of a patent to the Christmas Gift Mill & Mining company for their group of claims in the Helent Hovey, referring to the case, says: The Pennsylvania Limited Dons Summ

"It is the initiatory step of what was por tended by President Oakes' letter to the St Paul Globe, dated March 5, 1888, which is substance claimed that all odd sections land not designated as mineral within the railroad limits are conveyed by virtue of the land grant to said railroad company at the time when the official surveys of the public lands are approved, and that the subsequent discovery of mineral does not invalidate their title. "And as this land grant is for every alter-nate section in a belt of government land, forty miles on each side of the Northern Pacific railroad, with a still further ind nity strip of twenty miles on each side of said eighty mile strip, and as said Northern

Pacific passes through what is at present the chief mi eral producing section of the territory, it will be seen that their claim will embrace all the mineral lands in the "It is not until recently that the import realized. This classification has been left realized. This classification has been left entirely with the deputy surveyor, who without further examination than passing over the ground in the execution of his surveys, and without compensation for examinations, notes in his field book: "Ag-

icultural, Mineral, Mountainous or Tim bered."
"And his returns of mineral land was a one time still further curtailed by an order from the department not to survey any mineral lands.

T. H. Kleinschmidt—If the city can get water at a reasonable cost let it do so; but I don't believe in mortgaging the town to such an extent as to make it a burden to the people. A liberal debt the city can carry, but don't go too far. I do not want to see a million dollar debt hanging over the city. Woolston's proposition seems a fair one if not made too long.

Woolston's proposition seems a fair one if is not so situated as that it can with safety add at least a million and a half dollars to its indebtedness and successfully compete with the consolidated water company. If the necessary money could be borrowed at 5 per cent it would cost the city not less than \$100,000 per year to maintain its with competition it could realize one-half that amount from safes of water. From a business standpoint it seems to me there is not one thing for the city to do, which is to

railroad company are found to be valid, it will affect the title of patented as well as of unpatented mining claims.

THE RAILBOAD CASE. The case of the railroad, as stated !

A public temperance meeting will be held in Adams' hall, Helena avenue, on Friday evening, Aug. 23, at 8 o'clock. Addressess will be delivered by Rev. Dr. J. C. Quinn and others. All cordially invited.

Judge Blake vesterday issued an order of Consolidated located in sec. 18 Judge Blake yesterday issued an order of condemnation for a certain piece of property in school district No. I, Helena townsite, black 382. The city will use it for right of way and the price set to be paid is \$200.

Oct. 5, 1884, for the Cross Fire, Security and Consolidated lodes, located in secs. 16 and 17, twp. 10 n. r. 4 w., should not be concelled. Referring to a letter of the commissioner of the general land office of Aug. 2, 1889.

1. When the survey of said township was made the surveyor general segregated.

paid is \$200.

Bob Fisk says, in explanation of the treatment accorded the Butte Critic base ball club, that he arranged for a game on Sunday, Aug. 25. The west-siders arrived one week too soon and consequently were not expected.

The Young People's Society of Christian Endeavor of the Congregational church will hold a lawn social this evening at the residence of John Stedman, corner of Dear born and Spruce streets. All friends of the society are invited.

An extra sleeper was attached to No. 2 on the Northern Pacific train last evening to accommodate the large number of Helena people who took advantage of the low rates to Milwaukee to visit eastern friends The local ticket office sold two full sleepers.

A certificate of incorporation of the Jarvis-Conklin Mortgage & Trust company.

Strike in the Elkhorn Queen.

The owners of the Elkhorn Queen mine, most of whom reside in Helena, yesterday received the cheering news that the lead had been struck on the 300 foot level in ninety feet. The full extent of the strike will not be known for several weeks, as it is expected it will take some time to cut through it. The Elkhorn Queen is undoubtedly one of the coming silver mines of the Elkhorn district. At the 150-foot level the lead was cut about ninety feet in the drift and showed about forty feet thickness. The vein runs almost perpendicular, and when the full extent of the new find is shown the company propose taking steps to treat the ore and erect a steam hoist.

Hanan & Sons' men's \$6 shoes for \$4 at Gamer's.

Strike in the Elkhorn Queen mine, serve, patents for the lands granted shall be issued to the company; confirming to the company the right and title to said land, situated opposite to and co-terminus with, said completed section. The road opposite township 10, north range 4, west, was completed and duly accepted by the president.

It thus appears that the land was not only segregated and returned by the surveyor general as agricultural land, but also that no discovery of mineral was made therein, until long after the company's right had vested by the grant, the definite location of the road and its construction and acceptance by the president.

By his acceptance the company became entitled to its patents and "the right to a patent to land, once vested, is treated by the government, when dealing with public lands, as equivalent to a patent does issue it relates back, to the inception of the right of the patent does issued.

When in fact the patent does issue it relates back, to the inception of the right of the patentee, as far as may be necessary to ent of lundy accepted by the company, confirming to the company to make the fully accepted by the president.

It thus appears that the land was not only segregated and returned by the surveyor general as agricultural land, but also that no
